MIKE WARREN

warren.michael.douglas@gmail.com

Experience

Axiom Medical

Software Developer I   **July 2022 — Sept. 2022**

- Developed and maintained features for mission critical business applications
- Back-end development with **C#**, **ASP.NET Core**, **Entity Framework Core**, and **SQL Server**
- Front-end development with **jQuery**, and **Bootstrap 5**
- Created unit tests with **MSTest**
- Version control with **Git**

Business Analyst   **Nov. 2017 — June 2022**

- Worked closely with executives and business SMEs to negotiate requirements for new features
- Designed software solutions from requirements, including UI/UX and database schemas
- Collaborated with dev leadership to finalize implementation details
- Delivered detailed, actionable user stories, including process diagrams, wireframes, and truth tables
- Worked closely with developers to ensure delivered features matched requirements
- Supported development, operations, implementations, and IT support teams as technical SME for multiple mission-critical applications
- Wrote ad-hoc queries and reports in **SQL**

Xola

Implementation Project Manager   **July 2016 — Sept. 2017**

- Managed software implementation projects as clients' sole point of contact
- Subject matter expert (SME) on Xola's software product
- Develop internal documentation to share knowledge of product, workarounds, best practices
- Communicate design and functionality specifications for development of internal tools

Projects

Asset Manager — *https://github.com/mike-warren-dev/AssetManager*

- You'll find a link to a live instance in the README file
- Build with **C#**, **ASP.NET Core**, **Entity Framework Core** code first, **jQuery** and **Bootstrap 5**
- Implemented features:
    - Authentication & Authorization
    - Data persistence with EF Core (code first) & SQL Server
    - Caching, cache refresh via background service
    - AJAX forms, dynamic forms
    - Hosted on Azure

nopCommerce — *https://github.com/nopSolutions/nopCommerce/pulls?q=author%3Amike-warren-dev*

- Open source contributions

Education

Texas A&M University

Bachelor of Arts
